Overcome by the Fumes From a Gas Stove.

ARE DISCOVERED JUST IN TIME

To Save Their Lives Last Evening.
The Couple Had Remained Unconscious for Upwards of 24 Hours.
It Is Thought.

SPECIAL TO THE COURIER.
WEST NEWTON, Feb. 11.—John Sullivan, a well known freight conductor on the Pittsburgh & Lake Erie railroad, and Mrs. Amanda Jobs, who keeps a boarding house on Water street, had the narrowest sort of an escape from death last night. It was only by the hardest kind of work on the part of Dr. A. R. Kidd that both of them were saved. They were overcome on Sunday night by the fumes from a gas stove, which it is supposed was blown out by a draft from an open window. All day yesterday there was no sign of life about the house.

Then officials of the railroad who had been after Sullivan to take his run out, asked Constable P. R. Peters to make an investigation. In the presence of a great crowd he broke open the door and found Sullivan and Mrs. Jobs unconscious, and he supposed dead. Dr. Kidd was called and the couple regained consciousness after two hours' work.

Neither Sullivan or Mrs. Jobs remember anything after they went to bed on Sunday night. The gas stove had been used in the room for a long time. Sullivan has been a boarder at Mrs. Jobs' house for about ten years. There were no other persons in the house at the time.

LACKED FOUR OUNCES.

Quart of Milk Purchased by Local
Druggist When Measured Showed
That Shortage.

A Conneltsville druggist has made an important discovery relative to the amount of milk some dealers give for a quart. He finds that there is at least one milk dealer who gives only 28 ounces for a quart, instead of 32. The other day he had occasion to purchase a quart of milk from a dealer, and as he poured it into his graduate glass he discovered that he was just four ounces short of the legal fluid for a quart.

The druggist thinks that there may be other dealers selling short measure, which is a crime punishable by seven years. The law of weights and measures is very strict, and these hard times deal a heavy blow to a dealer who practices this small deception which amounts to considerable in a year is not known, but there is certainly one milk dealer who has the strongest kind of evidence piled up against him. Health Officer Allen Hyatt may investigate the case.

PALMER BEATEN.

Tommy Burns Easily Put English
Fighter Away for the Count
in Four Rounds.

LONDON, Feb. 11.—(Special)—Tommy Burns, the American, last night knocked out Jack Palmer of New Castle, the English champion, in the fourth round of what was scheduled to be a 20 round contest for the heavy weight championship. Some 2,000 persons saw the fight, which took place at Wembley, a big music hall on the East Side, but it was a one-sided affair from the first round of the going until the middle of the fourth round, when Palmer, on his knees, was finally counted out.

The referee might have given a decision in the first minute of the contest, as Palmer was a beaten man from the moment he entered the ring. Palmer fought like an old woman.

A Bad Negro Is Run In For Swearing at Cops.

J. E. Hale, colored, expressed his opinion of the Conneltsville police force on Brimstone Corner, yesterday afternoon and told them all to go to a warmer climate. He landed in the bastille this morning Burgess Solson committed him to jail for 15 days. Hale has had a reputation with the police. The last time he was arrested he attempted to put Officer M. McCudden out of the police business, and only subsided when he was given a few raps over the head. Yesterday Hale got drunk and paraded the streets in a belligerent manner. He was told to go home, but refused, when Officers Anderson and Lowe

LEAGUE LOOSE ONE LAST YEAR

Starting on a Shoe String Basis and
Being Neglected Throughout Season
by President Power—Local Players
Can Not Be Reserve.

At a meeting of representatives of the West Penn. Baseball League at Pittsburgh yesterday four clubs were represented. Conneltsville through proxy, H. E. Irwin and P. T. Robinson being there as representatives of the local franchise holders. According to President Power there was much enthusiasm. But later a west. Edmont was not represented. Neither was Greensburg. At this distance the West Penn. meeting looks like a bluff. President Power knows that P. is a dead one. Greensburg will not be back in the league nor will Butler. At Conneltsville certain influences are working for their own interest to get an independent club.

President Power told the league was a shoe string organization last year, and he won't give it any more attention this year. Conneltsville won't spend any money on a West Penn. ball team the coming season. Just put a pin in that statement. If the present franchise holders can go along and start the season without having to raise any money they are willing. If the club goes under, one by one they will drop out. In fact, as the holders of the franchise are at present organized, they are not responsible in a legal way for salaries that might be due players. There was never any organization among the Conneltsville franchise holders, and in reality they are not absolutely certain that they hold a West Penn. franchise. President Power has a habit of handling a franchise around to some one else when conditions don't suit him, but they are not certain but that he would do it here before the season is out.

Not a player on the Conneltsville roster can be legally paid. The salaries were paid last year they were paid only 75 percent what was due them. The National Commission would decide that any one of the players is free to sign where he pleases and it that way the players look at the matter. President Power and Secretary Farrell of the National Association notwithstanding. The West Penn. has been wobbling about and blurring so much lately through the manipulation of President Power that the baseball fans hereabouts are disgusted. Give us something more substantial than a continual line of dope that on the face brands itself a pipe dream.

APPEAL FOR AID

To Help the Worthy Poor Made by
Officers of the Salvation
Army.

Captain Moreland who was recently stationed here as captain of the local Salvation Army appeals to the residents of Conneltsville for their aid in assisting him to help the poor of the town. During his short stay in town many persons have already appealed to him for aid. A few days ago the mother of a large family came to him asking for something to eat for her family. She said that the children cried daily for bread. The family is worthy of any help. Many other similar cases have been reported.

Captain Moreland urges the people of Conneltsville to contribute to the list of the many poor families of the town by sending money, articles of clothing of any kind to 109 South Pittsburgh street. Persons not caring to deliver articles in person call Captain Moreland at his home and he will gladly send them. Meetings are held every evening with the exception of Monday evening. Everybody is welcome.

the Country for Rest.

United Press Telegram
VIENNA, Feb. 11.—Though the St. Petersburg press was not permitted to publish the fact, it is positively known through official channels that the Czarina is suffering from hallucinations, and that her physicians have urged her removal from Russia. The latter's ministers have reiterated their warning that his absence from the country will involve the gravest political dangers. His majesty is reported to be considering the dissolution of the Douma.

His ministers fear serious disturbances will be precipitated as a preliminary to the trip to the Riviera with his wife.

VALENTINE DAY POSTOFFICE RULES.

Senders of Valentines Can
Save Themselves and
Clerks Trouble.

RATES OF POSTAGE CHARGED.

Drop Letter in a Free Delivery Town
Must Bear a Two Cent Stamp No
Matter Whether Letter is Sealed or
Not.

A few timely suggestions are offered by Assistant Postmaster Arthur B. Kurtz, in view of the approaching St. Valentine's Day, which, it followed, will save the clerical force considerable trouble and insure the delivery of some one's love token. Valentines printed upon paper require but one cent for each two ounces. If made of other material than paper, one cent for each ounce is necessary. To post at either of the mentioned rates, the envelope or parcel must be unopened and contain no writing, except the name of the city or town, the date and name and address of the sender.

Numerous people are under the impression that a lot of drop letter requires but one cent in postage. This is erroneous, for at all free delivery offices the letter postage is two cents for one ounce or for the fraction of an ounce.

To deposit the matter unopened does not affect the rates, for if it contains writing or is sealed and does not contain writing, first-class postage is necessary. When the identity of the sender is known or can be ascertained, the matter is returned to them at the additional postage, otherwise it is collected from the addressee. If such matter has one first class rate of postage affixed the same is dispatched and the deficiency is collected at its destination.

There appears to be a general misconception prevailing concerning the mailing of post cards, and it is held by many that because their condition entitles them to some minor with the regulations governing them. Therefore post cards may have messages upon both sides and require but one cent in postage.

Cards with these or other adhering to the regulations. An enclosed post card requires but one cent, providing there is no message upon it. In the latter instance, first-class postage, two cents, is necessary regardless of the fact that the covering is transparent.

The stamps must be affixed to the covering when cards are enclosed and not to the cards themselves, for affixed to the latter it will not be considered as postage, and where the sender is unknown the addressee is notified to send the deficiency.

ARGUMENTS CONCLUDED

Attorney Stephenson Contends That
the Corrupt Practices Act
is Ailright.

UNIONTOWN, Feb. 11.—Arguments were concluded yesterday in the matter of the opening of the audit of John R. Byrne, Attorney Stephenson of Pittsburgh occupied the greater part of the afternoon with his argument. He said that the corrupt practices Act was a good one and that it would be a pity to knock it out. He said every part of it was germane to the present case, and that it was constitutional and it was a duty to observe it strictly.

It is not likely that an opinion will be handed down by the court for some time.

The Hobo Street Workers Soon Tire of Payless Jobs.

When six o'clock came yesterday evening the force of 17 men who work upon the streets, decided that one day's work without pay was enough for them. None of them, however, wanted to go out for the night and all asked permission to be allowed to sleep at the police station which was granted them. Among the number of men who yesterday worked to secure something to eat, were several who said they had been promised work at Hiler Hill, and were anxious to get there. Burgess Solson ordered all the men who wanted to leave to do so and this morning all but one were turned out. One man said he preferred work and he was allowed to go upon the streets again today.

In order to keep up the supply of men another mail was directed upon the streets last night and eight arrests were made. The entire number this morning were anxious to go upon the streets, and under the direction of Officer Anderson they were set to work. The only remuneration they

FIGHTING MINE FIRE.

Proprietors of Century Coke Company
on the Ground Directing the
Work of Confining It.

J. B. Horn, mining engineer, returned this morning from Brownsville where he has spent two days in examining the Century mine of the Century Coke Company, which is on fire. J. B. Horn of Philadelphia, Pa., and Leonard Lehnert, owners of the mine, are on the ground and have taken active charge of the work to extinguish the fire.

The bristlers are now being removed back toward the shaft and an effort will be made to confine it to a small tract of coal by the erection of permanent air walls. The mine has been closed and sealed and an coal is being taken out. It is thought, at next Monday, however, that it will be possible to operate a portion of the mine. J. B. Horn has been employed to superintend the work.

It is thought that the fire was started by a blown out shot and that some new workers that were employed smuggled into the mine black powder and failed to go back after firing the shot.

The principal loss to the company will be in operation, as a good contract for coke was secured a few days ago.

THE VALUE OF PERSONAL KNOWLEDGE.

Personal knowledge is the winning factor in the culminating contest of this competitive age and when of ample character it places its fortunate possessor in the front ranks of the well informed of the world.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort. A knowledge of forms, knowledge of functions and knowledge of products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Fig and Elixir of Senna, manufactured by the California Fig Syrup Co. is an ethical product which has met with the approval of the most eminent physicians and given universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the well informed of the world who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Fig—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the well informed of the world to be the best we have adopted the more elaborate name of—Syrup of Fig and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Fig—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for Syrup of Fig—or by the full name—Syrup of Fig and Elixir of Senna.

PENNSYLVANIA RAILROAD

Bulletin.

THE EASE OF TRAVEL TODAY.

It has just turned a century since the first boat was propelled by steam. There was not a complete locomotive in existence then nor a mile of railroad track. But the pendulum of time has swung rapidly forward within the last two generations. The railroad, the telegraph, and the telephone have revolutionized the commerce and the industry of the world and have made neighbors of remote people.

First of all in this work of unbuilding, expansion, and development comes the railroad. It is the medium of exchange the agency of transfer, and wherever it has gone prosperity has followed.

The Pennsylvania Railroad has built thousands of miles of track and equipped it with the best rolling stock. It has constructed or absorbed branch lines and consolidated them with its main stem, thus bringing industrial and manufacturing interests in direct touch with all the centres of trade and affording to the people the facilities of travel in all directions. Travel is no longer a dread, it is a pleasure. Comfortable cars by day or night drawn by the best type of locomotives over a roadbed maintained at the highest degree of excellence, eliminate as far as possible the annoyances of travel and make it a pleasure rather than a burden. Tickets are sold at the lowest rates consistent with good management and under conditions most accommodating to the passenger. The schedules of the trains are designed to meet the wishes and require the greatest number of travelers, and the equipment both as to vehicles and employees, is kept at the highest state of efficiency.

It is the object of the management to encourage travel by making it easy, interchange the life of the social system. Travel is a tonic to the tired—the lens of observation to all.

The Pennsylvania Railroad sells tickets good for a mile as well as for a trip around the world. It will plan a trip for you or provide tickets for one of your own selection. It is a fine thing to have a great transportation agency like the Pennsylvania Railroad at your command.

JUSTICE FULLER

Chief of the United States Supreme Court, is 75 Years Old Today

Special to The Courier
WASHINGTON, D. C., Feb. 11.—He kept Chief Justice Fuller busy today receiving the good wishes of his colleagues on the Supreme bench and his numerous other friends in and out of official circles who called to congratulate him on his 75th birthday.

Despite his flowing snow white hair Justice Fuller is far from looking his years. His eyes are bright and his cheeks are as red as those of a school boy and mentally and physically he is active and vigorous as many men half his age. All his life he has been fond of outdoor exercise and to this he attributes his general good health.

From time to time there have been reports circulated that said to the detriment of the Chief Justice. He is the oldest member of the Supreme Court and has already given five years more to the nation's task of settling every matter coming before the court than he would have had to give.

But there is little probability that he will retire before much longer. At least though precedent and honor compel him to keep out of politics he is as vigorous a democrat and would undoubtedly like to see his successor in the office of Chief Justice. Much would have to be said of course, before it could be decided that he should be removed from the office. It is the duty of the President to remove a Justice if he is unable to perform the duties of his office. But it is not likely that Chief Justice Fuller would decide to retire from the bench some time within the coming year.

At 75 Justice Fuller can look back upon a long and useful career. He is a native of Maine born at Augusta February 11, 1832. He was admitted to the bar at the age of 20 and practiced law as a profession and went to the Harvard Law School to qualify. By 1858 he was admitted to the bar and during his first term in the Maine capital. Shortly after his election to the office of Justice he was named for the office of Justice of the Supreme Court and of these only two have exceeded the record of Justice Fuller in the length of their service. John Marshall of Virginia served 34 years from 1801 to 1835 and Roger B. Taney of Maryland served 25 years from 1836 to 1861.

When he took the Chief Justice's oath he had completed a service of 25 years as a Justice of the Supreme Court. He is the highest paid official in the land. There have been but eight Chief Justices of the Supreme Court and of these only two have exceeded the record of Justice Fuller in the length of their service. John Marshall of Virginia served 34 years from 1801 to 1835 and Roger B. Taney of Maryland served 25 years from 1836 to 1861.

SIMPLE SPELLING.

Some Words Under New Fangled Arrangement Don't Suit the Old Times

Reading an article a few days ago on simplified spelling called to my mind a story told in a spelling school fifty odd years ago. The story was about two men who were running a store up in Somerset county. One of the men had written a letter to a friend in Philadelphia and after he had it packed up and the address written on the envelope he was not quite sure that he had correctly spelled Philadelphia. He called to his partner and said: "Say Phil, how do you spell Philadelphia?" The other replied: "Why Philadelphia? That's the way I've got it. It was the proper name and the letter went through all right."

But about this simplified spelling. Honestly I don't like it. There are a number of words spelled in such a way that they make me sick at the thought. Every time I run across them in a book or when I see them in a newspaper I have to say that would be a good word to use when writing to a friend. I'll tell him that you got full last night and then up.

However this new spelling, and will be a god-send to the present generation and especially to the older people. You can now write letters without consulting the dictionary a dozen times to find out how to spell a word. You can spell it the old way or you can spell it in the new way with a and sh and gee thus oblige.
